# ABOUT SRS

SR\*S stands for Senki Revo Sport, with 10 years of experiences and counting from fine-tuning vehicles, we were able to develop a series of performance parts designed for enthusiasts.

With the experience and understanding the needs of users, we were able to enter a market that was still in low gears compared to today. With our brand, we were able to step in the shoes of users and design parts that are more efficient or were not available at the time.

SR\*S mainly focuses on stainless steel exhaust parts and accessories to serve a wide variety of users, those that are looking to replace their stock parts or a performance upgrade on their exhausts can come to us for quality parts with different styles and needs for all kinds of vehicles.

All SR\*S Cat-back exhausts are designed with pinpoint precision for perfect fitment, each cat-back is individually inspected for quality assurance. Most, with a few exceptions, of our cat-back exhausts are designed to direct bolt on to the stock catalytic converter to be compliant with emission and sound limits. All SR\*S exhaust products come with a one year warranty.

We believe in and use our own products and we understand that users want the highest quality exhaust parts, but that's only part of it. We strive to provide the best customer service we can, to help users find and understand the part they need. Those that buy from us will know, and feel the difference.

# CATBACK EXHAUST

SR\*S Cat-back Exhaust Systems are made with high quality stainless steel, CNC machine flanges and are mandrel bent to make sure you always receive the best quality product and the best performance out of your vehicle.

SR\*S Cat-back systems come with a polish finish to give you that show look on the streets as well as on the track.

SR\*S Cat-back exhaust systems were design to have a deep tone, smooth, throaty clean sound that you will enjoy when driving in the road or roaring your engine on the track.

SR\*S Cat-back systems are made so that there is no welding or special installation required, with our direct bolt on design installation is a breeze.

SR\*S Cat-back systems all come with a 1 year warranty
